Trainer's Tip: In the first block, teach your class that a rocking horse is simply a Jog heel in the back and a Jog in the front. Once they master the legs, adding strong arm movements will be more easily accomplished. Take advantage of the song's title to inspire your class to punch strongly on the Bridge block.

The lyrics start out with "If you want a good time." Ask your class if they want a good time, then show them how to have fun. On the Chorus block, emphasize traveling and rebound to increase the cardiovascular intensity.

		Finish	1 x 1	Land wide						
V1		C1	B1	V2	C2	B2	V3	C3	B3	C4

Trainer's Tip: The Roundhouse kick is a new move to a cardio song, but a move that we have used before in the leg track of WIM 29. Build on their past experience to master this cardio move. The Cross Over Jog is reminiscent of a Cariola move (used in athletic training). The Double Wide block offers a great opportunity for kicked-up cardio challenge. Ask you clients for their best on the wide jog.

Trainer's Tip: The Diamond Touch is a new move that may take a couple classes for your students to embrace. It can be done horizontally for maximum range of motion or vertically, especially if a student is fearful of floating or simply wants to protect their hair from the water. The Split Crunch requires lower body stabilization. Try to set that up and then cue the crunch.
